

Eastbound Detour to Begin Memorial Day Weekend

TRY IT BEFORE YOU DRIVE IT

Take a practice drive in stunning 3D on the new eastbound approach into Oakland before you start your vehicle with the Bay Bridge Explorer. This new mobile app drops you into the driver's seat and lets you cruise on the new East Span of the Bay Bridge while construction is underway. See how your drive across the Bay Bridge will change as we prepare to open the bridge in 2013. Bay Bridge Explorer is available in the App Store on iTunes.

STAY INFORMED ON OUR NEW SITE!

BayBridgeInfo.org has a shiny new look that is more than skin deep. Visitors will find a media-rich site that offers a more interactive and immersive experience including larger galleries of hi-resolution photos and videos.

AN EASY EASTBOUND CHANGE

Bay Bridge motorists should expect a slight change as they approach Oakland. While select eastbound lanes will be closed from 8 p.m. to 5 a.m. on Saturday, May 28 and Sunday, May 29, connecting the detour will not require a full bridge closure. Eastbound traffic will still be able to cross the bridge and westbound traffic will not be affected. The speed limit will remain the same and will be enforced.

By implementing these detours near the Toll Plaza for the next two years, the entire bridge will open to the public earlier than previously scheduled. Stay tuned in early 2012 for the completion of the westbound detour. For more information visit BayBridgeInfo.org/otd_detour.
